Re: City of China, Texas  
GLO – CDBG-DR Imelda Application  
Engineering Letter

Dear Mayor Osborn:

Whiteley Oliver Engineering, LLC is recommending the application of the Imelda CDBG funding to be utilized into rehabilitating the deteriorating roadway of South Broadway within the City of China, Texas. This project will provide for the rehabilitation of South Broadway roadway starting at the intersection of U.S. Highway 90 and continuing southerly for approximately 4,300 linear feet to Wilson Street. The proposed improvements shall consist of a full depth repair including reworking the base for a solid foundation followed by a final surface of asphalt.

South Broadway has experienced flooding from Imelda which has expedited the aging and deterioration of the road in several areas deeming it an immediate need for improvements. South Broadway is also the main artery for the citizens that live south of Highway 90 that drive to get in and out of the City of China, so it is imperative that a new road surface gets constructed for the safety of the citizens as well as assist with mitigating future flooding events.

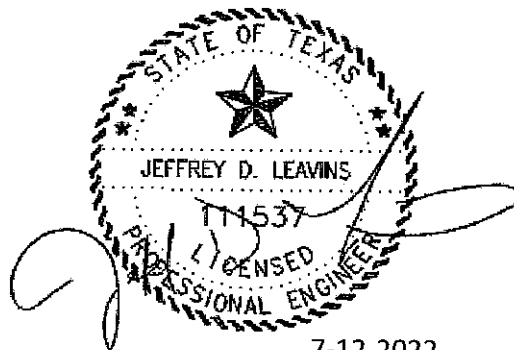

If you have any questions regarding this project, please feel free to contact myself or Trey Gaspard at 409-892-0421.

Sincerely,

**WHITELEY OLIVER ENGINEERING, LLC**

Re: City of China, Texas  
Road Improvements Project  
GLO – CDBG-DR Imelda Application  
Beneficiary Letter

Dear Mayor Osborn:

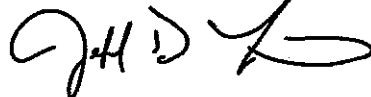

Whiteley Oliver Engineering, LLC is recommending a road improvements project to repair the existing deteriorating conditions of South Broadway for the benefit of the City of China, Texas.

South Broadway is the City's primary thoroughfare for citizens traveling within the City of China. Proposed improvements to this road are imperative to provide a safe evacuation route for the community during emergency situations, as well as providing safe transit to emergency response personnel. All residents residing along South Broadway and its adjoining side streets shall benefit with the improvements proposed to the South Broadway roadway.

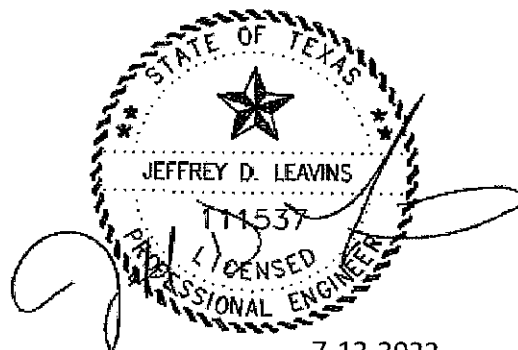

If you have any questions regarding this project, please feel free to contact myself or Trey Gaspard at 409-892-0421.

Sincerely,

**WHITELEY OLIVER ENGINEERING, LLC**
